The QuickStart package is designed so as to bring end users into productive use of the core sales and marketing functions in Dynamics 365 as quickly as possible, and without customisation of the platform. We aim to rapidly enable customers to start to gain the business benefits of Dynamics 365 and allow additional functionality to be added over time. Artis Group offer the following value-adds as part of our QuickStart Package with pricing starting from \$7,500*.

1. Discovery Initiation & alignment

- Initiation meeting
- Business Requirements gathering workshop/ interviews
- Technical readiness assessment
- Dynamics 365 familiarisation activities

2. Build Build activities

- Tenant establishment & subscriptions
- Users & security configuration
- Global settings configuration
- Standard Reports, Forms and Dashboards
- Outlook integration
- Assistance with data import

3. Enable Enablement activities

- As-built summary documentation
- Technical handover
- Power User training sessions
- Database administrator training
